Tableau Product Line

/ Tableau Desktop

   / Backbone of product offering. Use Tableau Desktop to create your workbooks.

/ Tableau Server

   / A secured intranet portal where users can easily publish and share their Tableau Workbooks by simply providing a link to a workbook. Does not require Tableau Desktop to consume the information, just a browser.

/ Tableau Reader

   / Free tool that allows you to open, but not edit Tableau Workbooks. You can only "read" what others have created.

/ Tableau Online

   / Could based "Tableau Server" solution. Tableau will host your server, enabling you to easily scale and publish content right out the gate.
